1. [REDACTED] telephoned about the Executive Pay Scale. He said that the Director had signed all the papers which I sent to him and that he agreed with the suggestion that we hold up the personnel actions, with the exception of Tom [REDACTED] for a few days in order to give the Bureau of the Budget time to react.

2. I talked with General Carter about going to [REDACTED] and he plans to go after lunch on Friday, 6 April. I will accompany him and, as I understand it, we will return on Sunday, 8 April.

3. I talked with [REDACTED] about certain expenses incurred by personnel [REDACTED] during the last [REDACTED] Course. I explained to them that I thought they were justified in disallowing these expenses and that the records should show this. At the same time I told them that I intended to use my special authority to bail Training out on this one occasion. I have also talked with Matt Baird at some length about these expenses, telling him that I thought his people used poor judgment and that he should insure that such expenses are not incurred again.

4. Jim Garrison reported that [REDACTED] has now accepted space in the Matomic Building. However, due to a legal fight between the General Services Administration and the owner of the building, we have been requested not to move in for the time being. I told Jim that I was reluctant to accept this delay since I felt that some other Government agency may get the space. Jim will develop the facts; however, we may have no alternative but to leave Tracy in a temporary building for the time being.

5. [REDACTED] telephoned again about Larry Houston's study of our "Conflict of Interest" requests and I told him that Larry had assured me that (a) we had no cases and (b) his full report on this matter was being typed. Larry tells me that they have talked with the Comptroller General about the possibility of Agency-furnished bus service from remote parking areas and were reasonably certain that this service could not be permitted under the law. I asked him to give me a brief memorandum on this subject which I could pass on to the Director.

6. [REDACTED] telephoned to say that since the IO Division and the Covert Action Staff were being merged, only one Chief of Support was necessary. I agreed that [REDACTED] should be Chief of Support and asked Vernon [REDACTED] to find some other place for [REDACTED]
